

Title: Fun in Stone Harbor

Author: Ryan Kaunitz

Age: 10

Welcome to Stone Harbor! I am Ryan and I love the shore. At the beach, you can build a sandcastle, dig a hole with Papa Jope, swim in the ocean, kayak, and boogie board with my sister and cousins. You can find sea glass too. You may be wondering what sea glass is. Well, sea glass is treasure of the ocean that you can find at the point. The colors you can find are brown, green, clear, blue, and sometimes purple. When I walk home from the beach, I like to play shuffleboard with Gigi. You can swim across the bay too and practice to be a Stone Harbor lifeguard. I want to be a Stone Harbor lifeguard when I grow up. I think if you like kayaking, playing in the ocean, and digging holes you would like Stone Harbor!
